

UTILITY SYSTEM BILL OF SALE

(EQUIPMENT, FIXTURES, STRUCTURES, AND OTHER IMPROVEMENTS)

FOR WASTEWATER COLLECTION SYSTEM
FOR

FORT BRAGG, CAMP MACKALL MILITARY RESERVATIONS
AND POPE AIR FORCE BASE,
NORTH CAROLINA
CUMBERLAND, HARNETT, HOKE, MOORE, RICHMOND AND
SCOTLAND COUNTIES

THIS BILL OF SALE is made this 28th day of February, 2008, from the UNITED STATES OF AMERICA, hereinafter the "Government", acting by and through the Secretary of the Army and the Secretary of the Air Force under and pursuant to the powers and authority contained in 10 U.S.C. §2688, and orders promulgated thereunder, to AMERICAN STATES UTILITY SERVICES, INC., hereinafter called the "Purchaser".

1. The Government for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, hereby sells, transfers, sets over, and delivers to the Purchaser, its successors and assigns, all right, title, and interest of the Government in and to the Wastewater Collection System (hereinafter "System") owned by the Government, as and where such System presently exists on Fort Bragg, Camp Mackall Military Reservations and Pope Air Force Base, hereinafter the "Installation", comprised of all equipment, fixtures, structures, and other improvements, including access as provided for in the Right-of-Entry and subsequent easement with this bill of sale, wholly excluding, however, any real property underlying, overlying, or surrounding such equipment, fixtures, structures, and other improvements. Such System is more specifically described on **EXHIBIT A, INVENTORY**, attached hereto and made a part hereof.

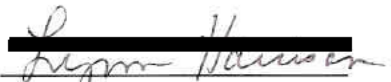

2. The Government, for itself and for its assigns, hereby covenants to and with the Purchaser and its successors and assigns, that the Government is the lawful owner of the System and has the good right to sell and transfer the same.

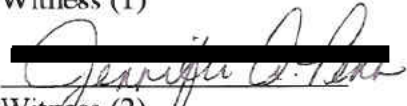

3. The Government specifically disclaims and excludes any implied warranties of condition, of fitness for a particular purpose, of merchantability, or of any other kind under the laws of the United States and of the state in which the System is located. The System is sold "as is, where is." This bill of sale does not grant any right of access, right-of-way, or easement of any kind whatsoever over, across, or to the real property underlying, overlying, or surrounding the System. Any right of access to the System is contained, if at all, in a document separate from this bill of sale.

IN WITNESS WHEREOF, I have hereunto set my hand by authority of the Secretary of the Army and the Secretary of the Air Force, this 29th day of February, 2008.

J3.2.1.3 Fort Bragg and Pope AFB Housing Points of Demarcation

The point of demarcation where Bragg Communities, LLC shall assume responsibility for sanitary sewer maintenance and repair is as follows:

- For existing dwelling units – The point of demarcation shall be at the point of connection to the main at a manhole or between two manholes.
- For all future new construction – In all future new construction, the dwelling unit sewers shall terminate into the closest manhole. The point of demarcation shall be at the point of connection to the manhole. If there is a service lateral cleanout at the property line, the POD will be at the downstream joint of clean-out.
- All other downstream wastewater components are included in the UP package.

J3.2.1.4 Condition Assessment

Fort Bragg has identified various problems with the wastewater system. In some areas of the collection system, 25-inch pipes empty into 14-inch pipes, causing flow problems. From June 1999 to July 2000, Fort Bragg Department of Public Works (DPW) staff responded to 102 sewage spills that resulted in the release of more than 73,000 gallons of waste from the sewage plant and the collection system.

The physical condition of the system is fair. Maintenance personnel believe manholes are a major source of infiltration. Many of the manholes are brick and numerous joints provide pathways for groundwater to infiltrate the sewer system. The increase in flow that occurs during storms is excessive, suggesting rain-induced infiltration. Treatment plant records from 1999 indicated a dramatic increase in total daily flows by up to 100 percent on days with rainfall of one to two inches. The maximum daily flow recorded during the period was 13.2 mgd, which corresponded to a rainfall of 3.25 inches. There are some isolated areas of sanitary sewers and force mains at or near capacity, which could cause localized development restrictions. This will require construction of additional sewers.

In general, lift stations comply with TM 5-814-2, Sanitary and Industrial Wastewater Collection - Pumping Stations and Force Mains. The lift stations are in average to good condition. Most have been upgraded or replaced within the last 10 years. Lift stations serving family housing areas tend to accumulate significant volumes of grease that must be removed manually during normal maintenance. Lift Stations No. 3 (Normandy, Hammond Hills) and No. 6 (Simmons AAF) are notable for grease accumulation.

J3.2.1.5 Inventory

Table 2 identifies the inventory of the Fort Bragg, Pope Air Force Base and Camp MacKall wastewater system. When not specifically identified by system drawings, the size and type of system components were estimated based on the size of the piping the component was connected to. Additionally, when the year of construction was not known, it was estimated based on the age of the piping or the age of the facility served. The inventory does not include the pipes and valves in the housing areas owned by Bragg Communities, LLC. Because the date of installation of some system components is given in decades, the Offeror should consider the 5th year as the date of construction (e.g., 1970 – 1979, use 1975.) For components with given installation dates of 2000 – 2006, consider the 3rd year (2003) as the date of construction.

J3.2.2 Wastewater System Non-Fixed Equipment and Specialized Tools

Table 3 lists other ancillary equipment (spare parts), and **Table 4** lists specialized vehicles and tools included in the purchase. Offerors shall field verify all equipment, vehicles, and tools prior to submitting a bid. Offerors shall make their own determination of the adequacy of all equipment, vehicles, and tools.

TABLE 3
 Spare Parts
Wastewater Collection System, Fort Bragg, North Carolina

Quantity	Item	Make/Model	Description	Remarks
Located at the Tank Hill compound area are miscellaneous spare parts that, to the best of the Government's knowledge, are left over from new construction projects. The items include, but are not limited to, pipe, manholes, and valves. The Government does not have an accurate inventory of these items at this time. Once the system has been awarded, the Government, in conjunction with the Contractor, wants to conduct a joint inventory of the spare parts and monetary adjustments made accordingly.				

TABLE 4
 Specialized Vehicles and Tools
Wastewater Collection System, Fort Bragg, North Carolina

Quantity	Item	Make/Model	Description	Remarks
No specialized tools or vehicles are included with the Fort Bragg wastewater system.				

J3.2.3 Wastewater System Manuals, Drawings, and Records

Table 5 lists the manuals, drawings, and records that will be transferred with the system.

**DEPARTMENT OF THE ARMY
AND THE DEPARTMENT OF THE AIR FORCE
RIGHT OF ENTRY
FOR THE WASTEWATER COLLECTION SYSTEM
FORT BRAGG, CAMP MACKALL AND POPE AIR FORCE BASE
CUMBERLAND, HARNETT, HOKE, MOORE, RICHMOND AND SCOTLAND
COUNTIES, NORTH CAROLINA**

WHEREAS, the United States of America (Grantor) has awarded to American States Utility Services, Inc. (Grantee) the privatization of the water distribution and wastewater collection systems under Utility Contract No. SP0600-07-C-8258, (hereinafter the "Contract") dated September 28, 2007, and agreed to enter into an easement authorizing the Grantee to construct, operate, maintain, repair, remove, upgrade and replace the existing and future water utility system on Fort Bragg, Camp Mackall and Pope Air Force Base.

WHEREAS, Article C.5.1.1. Transfer of Title, specifies that transfer of title will be accomplished by easement and bill of sale, and

WHEREAS, the Grantee has an urgent requirement to enter upon the proposed wastewater collection system easement premises in advance of the finalization of negotiation, execution and delivery of said easement, for the purposes of constructing, operating, maintaining, repairing, removing, upgrading and replacing the existing and future wastewater utility system, and

WHEREAS, the Grantor has agreed to allow the Grantee to enter upon the premises for the above stated purposes provided certain conditions are met.

NOW THEREFORE, subject to the acceptance of the following terms, reservations, and conditions, the Grantor hereby grants to the Grantee an immediate Right-of-Entry for construction, operation, maintenance, repair, removal, upgrade and replacement of the existing and future wastewater utility system upon certain lands on Fort Bragg, Camp Mackall and Pope Air Force Base, said lands being shown on Exhibits A-1 and A-2 to Enclosure 1 (identified as Easement No. DACA21-2-08-8234).

1. Grantee's acceptance of the Bill of Sale for the transfer of title of the equipment, fixtures, structures, and other improvements listed in "Exhibit A, Inventory" to the Wastewater Collection System Bill of Sale to be conveyed under the Contract.
2. The Grantee shall comply with the terms and conditions of the Contract and agrees to enter into negotiations with the Grantor to establish language acceptable to the Grantor and the Grantee in the attached format easement (Enclosure 1).

FORT BRAGG, CAMP MACKALL AND POPE AIR FORCE BASE, NC

3. The Grantee acknowledges that failure to comply with the terms and conditions of the Right-of-Entry agreement will constitute grounds for termination of the Right-of-Entry.
4. The Grantee agrees that it shall only conduct those activities specifically authorized in the Right-of-Entry.
5. The Grantee shall hold the United States harmless from any and all claims for damages to property or injuries to persons which may arise from or be incident to the exercise of this Right-of-Entry, or for damages to the property or injuries to the person of the Grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, not including damages due to the fault or negligence of the United States or its contractors or for claims or damages not related to the activities described herein.
6. This Right-of-Entry is issued for a period of thirty (30) days or upon execution of the easement, which ever comes first.

Granted this 29th day of February, 2008.

Acknowledgment

CALIFORNIA ALL-PURPOSE ACKNOWLEDGMENT

State of California

County of Orange

On Feb 28, 2008 before me, Tamara J. Hooper, Notary Public,
personally appeared Granville R Hodges

who proved to me on the basis of satisfactory evidence to be the person(s) whose name(s) is/are subscribed to the within instrument and acknowledged to me that he/she/they executed the same in his/her/their authorized capacity(ies), and that by his/her/their signature(s) on the instrument the person(s), or the entity upon behalf of which the person(s) acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing paragraph is true and correct.

WITNESS my hand and official seal.

Place Notary Seal Above

Signature Tamara J. Hooper
